```javascript
const express=require("express");
const app=express();

app.get('/show',(req,res,next)=>{
    throw new Error("Check me")
})

//this is to catch/keep the record of the error
app.get('/show',(req,res)=>{
    console.log("in request handler")
})

let errorHandler=('/show',(err,req,res,next)=>{
    console.log("from 4 parmas",err.message)
    // next()//it is transferring to a request handler
    next()//it transfers request to a error handler
})

app.use(errorHandler)

app.use((err,req,res,next)=>{
    console.log("handling error")
})

app.use((req,res)=>{
    throw Error("hello")
})

app.listen(3000);
console.log("Server is running");
```
